

**Subject: Declaration of SVHC substances (Substance of Very High Concern) Regulation 1907/2006 / EC (REACH) and SCIP notifications (Substances of Concern in articles, as such or in complex objects, Products) and subsequent amendments.**

## OFFICINE MECCANICHE ANI S.p.a

Via Arzignano, 190

36072 Chiampo, Vicenza, Italy

after having viewed the chemicals included in the Candidate List of the Reach Regulation amended on 06/27/2018 and Annex II of the Directive 2011/65 / EU of the European Parliament and of the Council;

## DECLARES

that in its products the only one substance in quantity exceeding 0.1% w /w, is:

Name	Update	CAS Number	EC Number	Danger
Lead (Pb)	Inclusion in the SVHC in the update of June 27 <sup>th</sup> , 2018	7439-92-1	231-100-4	 <p>Toxic for reproduction category 1A H360FD - May damage fertility. It can harm the unborn child. H362 - May be harmful to breast-fed infants.</p>

This element is among the substances for which the SCIP Notification is mandatory and in some materials used for the components of the ANI products.

Listed below are the construction materials used in which this substance is present, in the form of an alloy, as per specific technical standards:

- Brass **CW614N - CuZn39Pb3** according to the European Standard UNI EN12164.
- Brass **CW617N - CuZn40Pb2** according to the European Standard UNI EN12165.
- Aluminum **EN AW-2011 - AlCu6BiPb** according to the European Standard to UNI EN 573-3.
- Aluminum **EN AB 46100 - Al Si 11 Cu 2 (Fe)** according to the European Standard to UNI EN 1706.
- **Automatic Steel AVP - 11SMnPb37** according to the European Standard UNI EN 10277-3
- **Bronze 85.5.5.5 CuSn5Zn5Pb5** - according to the European Standard UNI-EN 1982 CC491K

OFFICINE MECCANICHE ANI S.p.a is to be identified as a "downstream user" and, according to the regulation, is not subject to pre-registration / registration requirements for the substances used in the production process.

**OFFICINE MECCANICHE ANI S.p.a** is providing the SCIP notification to ECHA (European Chemicals Agency) of its articles that contain chemicals included in the Candidate List of the Reach Regulation in quantities higher than 0.1% w /w according to the following general principles:

- Combine series of articles considering them almost identical when:
  - They have the same function or use;
  - They contain the same SVHC substances.
- Do not make distinctions when the variation refers only to different sizes but the function is the same.

This statement refers to the most recent additions to the Candidate List: checked on **23/01/2024**.
